

VidZapper

VidZapper is a comprehensive platform that enables you to format, manage, monetize and distribute video.

VidZapper supports delivery of video to websites, video players, IPTV, mobile and tablet devices and portals such as iTunes, Facebook and YouTube.

Features include the ability to plug-in applications, monitor stats in real time and build your own video services using the built-in API.

VZ loader

Link or upload content and metadata from any source and repurpose it in any required format.

You can combine content already on the web with your own produced content and user generated content. And then you can mix it all with live feeds.

Any content from any source at any time in any format, that's the flexibility VidZapper offers.
